

WE CLAIM:

1. The dynamic baby cleaning and changing pad comprises a stationary pad 1 mounted on a support 3 and a movable pad 2 that can slide on the support 3. On both sides of the stationary pad 1, 5 there are safety belts 4 and their holders 5. On the top of the movable pad 2, there are clean diaper holders 7 that attach a clean diaper on the movable pad 2. Moving the movable pad away from the stationary pad can create a space 9 between the stationary pad 1 and the movable pad 2.
10
2. The dynamic baby cleaning and changing pad of claim 1 wherein said a water container 11 can be inserted in the support 3, underneath the space 9;
15
3. The dynamic baby cleaning and changing pad comprises a support and soft pads on the top of the support. The soft pads comprise stationary pads 1, 10 mounted on the support and a soft pad 2 that can move between stationary pads 1 and 10. On both sides of the stationary pad 1, there are safety belts 4 and their holders 5; on the 20 top of the movable pad 2, there are clean diaper holders 7 that attach a clean diaper 6 on the movable pad 2. There is a space 9' between movable pad 2 and stationary pad 10. When the movable pad moves to the stationary pad 10, a space 9'' appears between the stationary pad 1 and the movable pad 2.
